CALL FOR PAPERS

DSC 2021 EUROPE VR

DRIVING SIMULATION & VIRTUAL REALITY CONFERENCE & EXHIBITION

The DSC Conference gathers driving simulation specialists from the industrial and academic communities as well as commercial simulation providers. This 20th edition follows that of 2020, held in Antibes, in a hybrid version with close to 300 participants, in this special period most of them as remote attendees and 30+ exhibitors. Both physical and remote participants came from all around the world from about more than 20 different countries of Europe, America and Asia.

This year's edition will be held from September 15th to 17th, 2021. Topics will include state of the art in driving simulation technology, research and developments, extended with progressively merging virtual reality (VR)

progressively merging virtual reality (VR) developments. This year program will also give an enlarged place for simulation tools for autonomous and connected vehicles along with advanced driving assistance system (ADAS) applications. Human factors and motion rendering nevertheless will remain the now traditional axis of the conference. Please note that there is a **separate call for Product Solution papers**, introduced in the 2018 edition of our conference, which had a great success in 2019 and 2020 and is a recognized part of our conference.

The deadline for abstract submission is set to December 31st, 2020. You are welcome to the DSC 2021 Europe Conference organized by the Driving Simulation Association, Technical University of Munich, Arts et Métiers Institute of Technology and University of Gustave Eiffel, on September 15th-17th in Munich!
