CALL FOR PRODUCT SOLUTION PAPERS

DSC 2021 EUROPE VR

DRIVING SIMULATION & VIRTUAL REALITY CONFERENCE & EXHIBITION

The DSC Conference gathers driving simulation specialists from the industrial and academic communities as well as commercial simulation providers. This 20th edition follows that of 2020, held in Antibes, in a hybrid version with close to 300 participants, in this special period most of them as remote attendees and 30+ exhibitors. Both physical and remote participants came from all around the world from about more than 20 different countries of Europe, America and Asia.

This year's edition will be held from September 15th to 17th. Topics will include state of the art in driving

simulation technology, research and developments, extended with progressively merging virtual reality (VR) developments. This year program will also give an enlarged place for simulation tools for autonomous and connected vehicles along with advanced driving assistance system (ADAS) applications. Human factors and motion rendering nevertheless will remain the now traditional axis of the conference.

You are welcome to the DSC 2021 Europe Conference organized by the Driving Simulation Association, the Technical University of Munich, Arts et Métiers Institute of Technology and the University of Gustave Eiffel, with the support of BMW and Renault, on September 15th-17th!
